

To whom it may concern; I am opposed to criminalizing concealed carry. Citizens who are registered to carry concealed hand guns are not a threat to our state, I would say they do more to contribute to public safety. This bill goes against our Constitutional right to keep and bear arms. The 2nd Amendment was put into place to allow for American Freedom to be protected. Chipping away at the 2A is not acceptable, any bills introduced against the 2A places the motives of our leadership in question. Do the right thing, vote no on SB 554.
