

I do not understand why the Dems are trying to make people who abide by the law into criminals by trying to take away our Constitutional and God given rights.
If you want to deal with the real problem look into mental illness....gangs...drugs....because if you think criminals are going to follow any of this you are sadly mistaken.
Along with your incompetence in curbing the riots in Portland and defending police and now you are trying to disarm citizens who want nothing more than to live the American dream to which you are turning into a nightmare by coddling criminals and the mobs in Portland.
I will be surprised if this state is financially relevant in 10 years with said policies on the agenda..
