

FACT: 92% of mass shootings happen in "Gun Free" zones.

Making more "Gun Free" zones will create a target rich environment for criminals and will not make you any safer.

The bill is arbitrary and confusing which will make felons out of good people for crossing an imaginary line while peacefully going about their daily business.

We should have equal firearm laws across the entire state.

Vote NO on this useless bill that only aims to harm lawful citizens with no benefit to the public.
