

I am opposed to this SB 554. Creating gun free zones and penalizing law abiding citizens by restricting further where citizens can carry is ridiculous. Criminals don't follow "gun free zones". Factual data shows that in the most gun controlled areas of the U.S. gun violence is much higher. As a concealed license holder and being a woman with 3 small children, I take great comfort in having the ability to defend myself and my children. I urge a NO vote on this bill.
