

This bill is what is to be expected from a government that is afraid of its own constituents. There is no reason for this bill except as an effort of corrupt politician to put yet another barrier between themselves and the people they represent.

I am not a criminal, I pay taxes and I work hard.

The representatives of my state trying to pass a bill that infringes on my constitutional rights to self defense and resistance to tyranny because they are too cowardly to face a legally armed voter base is unacceptable and frankly a slap in the face.

I encourage all the elected representatives of my government to think of what you would feel about someone else suppressing the rights you hold most dear before you trample mine. This bill is unconstitutional and against everything it means to be an American and an Oregonian and cannot be permitted to become law in this great state

Thank you for your time.
