

I am so sick of you people trying to take my constitutional gun rights. Is there no end to the lack of intelligence from you, our so called leaders? I have the right to carry because I will not be a victim and with all the crap legislation you are passing, I have never had access to my firearm more than in this time! You are about to make me a potential victim or a felon by passing this draconian bill. I live out where if I needed a cop for help I would be dead before they would get to me. STOP what you are doing as it isn't constitutional and you took an oath to honor the constitution, please do it
