

This is a letter in support of the Greater Toledo Aquatic and Community Center. funding. The Community Center is an integral part of a quality life in Lincoln County, especially to East County. I swam in this same pool as a high school swim team members, both my parents exercised here for years and I joined them later in their lives. The pool is kept at warmer temperatures which is so much better for the elderly and youngsters. My daughter and her child now swim in the same pool. Trust me it needs upgrades and is a struggle to maintain. We need assistance as local folks have been trying to find funding for decades with little result. Please help us keep the pool alive and functioning for all the community. These types of healthy venues are so important for the spirit and wellness of our country's small rural communities.

Sincerely,

Virginia Tardaewether
