

As a mom, a family doctor and the sibling of a brother who died of gun suicide, I must advocate for better gun safety laws. Please support SB 554 which would help keep guns out of schools and off college campuses and empower local officials to make decisions to keep their communities safe. We have more guns than people in the USA. 106 people die each day in the US due to gun violence. This is equivalent to a 9/11 event every month. Gun violence is a crisis that threatens the wellbeing of every person in the US. Gun violence is preventable and not inevitable. I am asking you to please support SB 554. It will take all of us working together to decrease gun violence in the USA. People do not have to continue to experience this kind of unimaginable loss and trauma.
