Dear Senate Finance and Revenue Committee,

I'm writing to urge you to **vote YES on SB43** pertaining to labor rebates and tax credits for media production.

I am an actress currently living in Portland Oregon. This is my passion and my way to provide meaning to the world. This outlet provides me and many others the opportunity to create stories that inspire others and often give them a healthy way of escape.

I have been a part of short films, which is an amazing creative outlet. I've been a part of TV series that share amazing messages with the world. I've been a part of commercials which help support so many businesses.

The programs in Oregon have helped me share my gift with the world. I originally moved to Oregon from Seattle because of all the opportunities there was to create in this state. Oregon is filled with some of the most creative people I have ever met, and I have spent many many months in LA for point of reference. Our creative gifts are supported by you, and it starts here.

We need a multi-year program to help future projects that take longer to produce, such as series and feature films. Los Angeles shouldn't have to be the only place in the country that supports creatives. If we keep the momentum going and put programs in place to support us, I know Oregon will be another hub for creative projects which in return will create so many meaningful jobs.

Please **vote YES on SB43** to extend these critical programs for our local production industry. It supports my livelihood.

Regards,

Aly Nordlie
