

As I did for HB 3376 I wholeheartedly support providing financial support for Salem Cinema through SB 5555. For the past 15 years my family and I have had the pleasure of viewing top quality, independent films shown by Salem Cinema. Due to the mandatory closure because of COVID-19 this theater has been financially stretched to the limit. It is time for the city of Salem to step up and help keep this theater operational. As much as I love going to the larger movie theaters such as Regal to see first run, major movies the loss of Salem Cinema would be a severe blow to the city's entertainment community. Please provide all the financial support that you can to keep Salem Cinema viable.
