

Thank you for the opportunity to provide a testimony.

My daughter always felt she didn't fit in with the traditional educational setting and students. When we moved to Gresham and found MEWA my daughter wanted to give it a try. The online platform proved to be exactly what she needed. Without this I am not sure that my daughter would have graduated.

On behalf of my daughter we thank MEWA for such a wonderful online experience. We are confident many other students feel the same way.
