

We have been an online charter school family for a couple years now and it has been such a beautiful thing for our family. I think it is very important that all families have the chance to pursue this form of education if it is what they want. My children are 4 years apart and because we are home doing school, they have been able to build a sweet close relationship. It has also provided my children extracurricular opportunities that they would not have been able to have had we not been able to do online charter school. I believe that all families should have the opportunity to choose what is best for their family and not be limited because there is a percentage limiting them.
