

Hello. My name is Olga. My son has been enrolled in MEWA Online Academy since 2018 and we LOVE IT. We have enrollment in MEWA because there was so much bullying in public school both mental and physical but unfortunate school principal wasn't able to do anything about it. Every day my son would be crying asking me to please let him stay home. One day i finally made the best decision ever, I've enrolled my son into MEWA and he loves this online school. We have on campus support lab, teachers are always available to help via Zoom also. Just wanted to let you know that we love Online school and it's the best. Thank you for your time.
