

The amount of pay that I get for being a Direct Support Professional there's no way I can make a living without a lot of overtime. But when I have to work all those extra hours a week I can't be at my best, my 110% goes down to 95% and I love to work with 110% for the people I serve. I'd rather have more quality time than quantity time with the individuals I serve.
