

This law is very important to me because I have also been through the traumatic events. My son was shaken and abused and I know first hand the impact and pain this child is suffering everyday. Not only him but also his mother. I stand by this law in the name of every child that has been hurt and suffers everyday because of the actions of someone else. These children have life long complications. Times where as mothers our children are in so much pain it rips our hearts right out of our chest knowing there is not a thing we can do to take it away. Brain damage is real and so is Shaken Baby Syndrome. We need to stand together. Jordans mom. Tabitha
