

I offer my whole hearted support for rescue legislation and funding for the dozens of small community movie theaters throughout Oregon. In my hometown of Salem, support for Salem Cinema is paramount, as it is one of our key cultural resources. The funds devoted to the financial support of Salem Cinema will go a long ways towards the further economic development and opportunities in our community. This will be especially true with both keeping existing inquisitive talent in our community and help with attracting new cultural creatives to move to and contribute to Salem's cultural richness. I am a small business owner and rely upon venues such as Salem Cinema to help me attract talent in my field of architecture and design. Sincerely, Nathan Good of Nathan Good Architects PC.
