

I along with others feel that the small theatre owners should be helped after being shut down most of the year during the Covid crisis. Monies would help with back wages, rent and other ongoing expenses that have been occurring during this time. I hope that YOU on the committee will see the need for these hard working folks and help make some funds available in the coming months so that their next YEAR will less painful and allowing them to restart their business's. thank you for letting US appeal for the small theatre owners.
