

Dear Chair Patterson and Members of the Committee,

I, Nicole am pleased to offer my support for HB 2574.

As a professional in the funeral industry, the offering of human composting is very appealing for many reasons. It is one of the most eco-friendly ways of disposition and it provides another offering for families to feel connected with to best honor their loved ones.

Human composting is also more sustainable for the longevity of spaces to place caskets or urns.

I ask for your support of this important legislation.

Sincerely,

Nicole Smith

Portland, OR
