

As former Toledo school educators, we've seen many students that have benefitted from the Toledo pool. Living in a coastal community, learning water safety is critical. The Toledo pool serves students and adults in all of the East area of Lincoln County. We totally support the Greater Toledo Aquatic & Community Center project. The East area of Lincoln County has demonstrated vision, initiative, & commitment through on-going support to build and grow safety, health, and community living standards. The Toledo Aquatic & Community Center would benefit not only the Toledo community, but all East area residents of all ages.
