

HB 2681

April 26, 2021

To: The Senate Committee on Rules

I strongly object to this bill and urge all of you to oppose this recommendation. With the climate of voter fraud running ramped across the United States, this bill would lead people to speculate dead people are casting a vote and would also allow for ballots to be filled by other people who are not the person (the inactive voter) listed on the ballot.

Oregonians need to be assured our elections are ran with integrity and by not having a maintained and accurate voter registration you will be giving us the impression that our vote does not count but an absentee person's does.

We need to stay on top of our voter registration and if audited, have proof that everyone listed is valid. I am in hopes and believe this is currently being done if it should so be challenged.

Respectfully submitted,

Leila Blakely

Sandy, Or
