

This Legislation is an openly blatant attempt of the Socialist Progressives to "De-Educate" the newest crop of Voting Oregonians into "Mindless Trolls" willing to follow worshipfully any and all who would "Promise them endless supplies of Handouts" with no regard as to how such will continue to be funded, by whom and with what! Where is the "Need" for School Attendance at all?" Just give the Diploma with the Identification/Drivers License when arriving Illegally from across the Borders, or with One's Birth Certificate! In the same vein, One should be able to continue to receive their "Paycheck" once a "Job Position" is secured without ever putting forth any efforts at Labor in exchange, or indeed leaving One's Home!
