

I am writing to strongly oppose this bill and urge you to do the same. I understand that there is concern regarding safety with relation to alternative care. However, I believe this is the wrong approach to deal with these concerns. I think that the approach proposed by other states (for example, Massachusetts Consumer Access and Right To Practice Complementary and Alternative Health Care Act - Safe Harbor Exemption for short) is a much better way of addressing the concerns, and does so without creating such a burdensome and limiting regulatory environment.

Thank you for your consideration.
