

I OPPOSE -1 AMENDMENT

-1 amendment modifies laws related to motor vehicle accidents and replaces "accident" with "crash" with no added requirement when "crash" does not cover all "accident" situations having the effect of removing a defense for some victims. Webster defines "crash" to break violently and noisily; smash. Accident is defined as an unforeseen and unplanned event or circumstance. It isn't a like for like replacement and may help or hinder legal cases that are accidents but not crashes.
