

Regarding HB 2493:

With all due respect I oppose this bill. This is frivolous, wasteful, and redundant. There are already in existence, legal avenues to regulate, report and protect citizens from what is listed in the pages submitted. The true emergency our representatives need to focus on are Covid-19 related issues.

This is a flagrant, transparent and overreaching attempt for the State to seek yet more revenue and control of the people. I have no support for this bill.

Sincerely,

Shelley Hines
