

Re HB 2493

I wish to submit an addendum to my testimony from yesterday, May 9, 2021. I am on a national board that has been tasked with certification of energy therapy practitioners. This board was formed in 2019 as a result of our government's request for the energy practitioner community to regulate itself. Please find additional PDF's that I believe you will find useful and a proposed bill that would be a better fit in this situation.

- 1) Oregon Bill 5/9/21 with MC edits. (we have submitted a similar version of this bill in the state of Massachusetts)
- 2) Cost model for the Oregon Board of Registration in Energy Modalities
- 3) Appendix B (a listing of the various types of energy modalities)

Thank you, Gail Jett, RN, MSN, FNP, LMT, RMT, EEM-AP
