

Please do not pass HB 3065

I live in North East Portland, near Harriet Tubman school. I do not want to fund Highway expansions or improvements. We need to look to a future where we do not rely on or subsidize personal automobile trips and infrastructure.

Instead, I want the Oregon Legislature to fund sidewalks, crosswalks, high speed rail, bike lanes, frequent bus service, electrified buses, intercity bus service, and basic road maintenance.

Thank you
