

I'm opposed to this bill singling out state mandated ways of deciding who gets in a charter school.. There are many factors about enrollment that would not be considered. Even previous students could be bumped, disrupting their education.. The Oregon constitutional rights already give equal treatment to every group. Alot of Oregonians don't agree with the left that sexual orientation ought to be somekind of badge to recognize outside of everyone else. You cannot legislate every breath we take. Your actions create anger and pushback when we ought to be looking to be more open and transparent. We have a huge group of students harmed by your ridiculous rules for covid. Cooperation not creating division should be happening.

Vote no.

Thank you

Liz Turner
