

Dear Senate Members,

Today I am writing this note to all of you requesting your support to approve this bill, and to make it law.

While I cannot even fathom what parents go through when they lose a child to bullying and especially cyberbullying in this age, I can tell you we have had our fair share of our kid being bullied in school. Fortunately for us, we were able to catch it in the early phase it and bring an end to it with active participation with the school. And the only reason we caught it because a friend of our son told his mom and she told us - the teachers knew about it but they had no obligation to tell us, and never did.

if you can please pass this bill, it will help save lives, and make life a little easier for kids who are bullied.

As a concerned parent and citizen, I request you to support this bill and let's make it law.

Thanks much.

Cheers,
Nagesh
