

Dear Kristin and Tom,

I would like to offer my deep condolence to your family as I just knew about the tragedy of Carson today. I am relieved that you are able to overcome the tragedy by advocating the anti-bullying and cyberbullying legislation. I fully support your endeavors to fight against bullying and cyberbullying in schools. I believe family involvement is one of the effective anti-bullying and cyberbullying measures. This legislation would clear the obstacle for family involvement. Please let me know if I am of any help.

Best regards,

Zhunquin Wang
