

This bill creates another burden on my company, and an unnecessary tax to benefit a state whose project of revenue is strong in May, projecting a 2.8 Billion positive ending balance, this alone is a 1.1 Billion increase from just two months ago. My business was in a horrible place a year ago and I needed the PPP to survive during a very uncertain time. Coming back to tax Oregon Businesses from this Federal Program which is tax deductible is unfair and unjust. It just shows the Salem just continues to want to take things from people and businesses who have been struggling and still struggling during a pandemic. I have also heard that the State of Oregon has been allocated 2.6 Billion in direct financial aid from the American Rescue Plan Act of 2021. I appose this bill in its entirety.
