

Dear Chair Wagner and Committee Members,

I am asking your support in restricting the use of Wake Boats. As a boat owner, kayaker, and swimmer, I have experienced the hazards created by these boats. My small fishing boat has come close to capsizing from the waves. In my kayak, I am relegated to the shoreline for fear of tipping. As a swimmer, I am frightened and intimidated. Although I do not live along the Willamette, I do live across the street and know my neighbors are equally distraught over the waves washing up on their shoreline and destroying habitat.

Thank you for listening to ALL users of the Willamette, our Oregon treasure.

Sincerely,

Susie Norman
