

You need to be an adult to vote. An adult in Oregon is 18 years old. Most Oregonians do not even know you have to pick a party to vote in the Primary, unless you want bond measures and judges to vote for. While motor voter is changing people's voter affiliation. This time and effort for education should be directed at adults not children. SOS has enough of a hard time not sending ballots to non citizens, people that moved out of state years previous,, and dead people. Before you know it they will be sending 16 year Olds ballots. I oppose this bill.
