

Who doesn't support this bill? Boat manufacturers from the other side of the country. What does that have to do with Oregon? The others who don't support this bill say that it is a small group of people with special agendas that do support it. The actual small group of people are the operators of the big wake boats on a narrow river that make it nearly impossible for anybody else to enjoy the river. They should do the wake surfing and big wake sports in a bigger body of water. One big wake boat can displace several smaller boats and paddlers. People with smaller boats and kayaks typically don't have the money to hire lobbyists like the big boat manufacturers do. Listen to all the people, not just the ones dominating the conversation. Please support SB857.
