

Many families including my own enjoy the togetherness and entertainment of being in the water and enjoyment of the fun tow sports we can do. In Oregon, this is realistically only about 2.5 months out of the year. This is a way to get together for family and friends to get together and enjoy the amazing summers that Oregon has to offer. Many friends and family in other states come to Oregon to also enjoy for the wonderful Oregon summers. Please don't ruin for Oregonians.
