

I live on the banks of the Newberg Pool.  
I urge you to support SB857. There are many reasons this bill is critical,  
Bank erosion (if I could say that a thousand times I would!)  
Disruption to wildlife, eagles, osprey, and nesting / hunting waterfowl  
Continuous waves make the water muddy which is disruptive to all wildlife  
Dangerous waves to swimmers, kayakers and SUPs  
Wake sizes are not natural to the river's natural state and flow  
Damage to dock and dock floatation  
Rocking of dock makes it unappealing for dock owners and guests
