

We are finding more and more information about the insurrection since it happened January 6. It is a fact this destructive event was widely known and had been planned was for capitol cities as well as our federal building. Mike Nearman opened a non-public door to let violent protesters in and knew exactly who he wrongly was letting in the building. He is guilty of a wrong against our democracy and has lost all respect as a leader in our community.

Expulsion is the only right way to treat Mike Nearman who was willing to help bring down our government build;g, workers, co-workers and what is the precious of all, our democracy.
