

I reside in District 23 and am a constituent of Mike Nearman. I was shocked to see the footage of him providing access for protesters to access the capitol, and even more deeply shocked to see that he had planned this in advance. This is not leadership, it is anti-leadership. If we have any hope of regaining civility in political discourse misdeeds like this must have consequences. Mr. Nearman has completely lost any faith that I had in him to represent me. Please hold him accountable. He needs to be removed.
