

I support Mike Nearman. I do not support elected representatives circumventing voters to remove him from office. The People who elect you are not dangerous. The People who disagree with you are not dangerous. What is dangerous is the idea that The People are no longer allowed in The People's House. Stop hiding from your constituents.

Additionally, if the building was supposed to be secured, it certainly was not Mike Nearman's responsibility to secure it. The police could have been at each door monitoring the coming and going if that pleased the crown.
