

To All Involved:

Please stop the nonsense and do what the people elected you to do.

Hopefully, more adults have recently evolved out of junior high school mentality. By spending an ounce of time on juvenile crap it is quite disturbing. We have people in the streets who are killing themselves and others with drugs and disease struggling and this is what resources are utilized for ??? It's ridiculous...and you know it!

Please stop wasting our hard-earned tax dollars on targeted witch hunts of anyone who challenges the narrative of evil. How many thousands of rioting vandals have destroyed our state to-date? Were THEY 'disorderly'.....? Are they employed, law-abiding citizens?

The youth are watching this insanity and see right through it all. They are the citizens that will be wiping the drool off your face when you are unable to do yourself and they will be changing your soiled body They also never forget the way adults either stand up for them ...or when you do not. Their future depends on YOUR behavior as legislative staff and administrators.

Get on with solving the REAL issues for the love of Pete...

God Bless - Millions of Citizens RELY on You All to do the right thing and let this man be free to do what is right for the masses- question the narrative and challenging it should be encouraged.
