

Mike Nearman, made a conscience decision to ENDANGER LIVES. He belongs in jail, not in our state houes.

The 2nd Amendment has not changed, when I was in school, we did not need active shooter drills, and when I became an adult you could have disagreements that were based on provable facts, and without fear of violence. Mike Nearman is everything you pray your children don't grow up be, or have in their lives.

He has made his misogynistic, violent and hate filled stances clear, he should be removed immediately.

This past election Oregon sent 3 women physicians to our state house, to bring their expertise to navigating us out of a pandemic, and bring new voices to our house. Mike Nearman decided to put their lives & every person that works in the capitols life at risk. If you pretend that this was anything less than a threat, than you too are to blame.

The video evidence speaks for itself, believe your eyes and remove him NOW.
