

Every one of you swore an OATH to defend the Constitution. The State of Oregon Constitution ensures that the public, 'We the People', be granted access to all Legislative Sessions making law. The same Constitution says that the Legislature extends State of Emergencies, not the Governor. You have all (except Mike Nearman) violated your Oath of Office, violated the State Constitution, stood by and have been complicit to tyranny by this Governor and Democrat supermajority, been complicit to the passing of unconstitutional laws, and have been silent when other members of the Legislature commit criminal acts like sexual harassment. How dare you! You all need to be held accountable for each of these travesty! You will be held accountable, at the ballot box, if you do not OPPOSE HR 3. The people deserve so much more than this rubberstamping of tyranny. We have a right, ensured by the Constitution, to enter the People's Capitol for session. Only one Legislator had the moral compass and backbone to allow entry, and now you want to punish him for being the only one of you to uphold his sworn oath. Reprehensible! OPPOSE HR 3
