

Rep Mike Nearman did nothing wrong, it was not his job to prevent people from entering a public building. In fact those who opposed the general public from entering a public building that we own, and are conditionally allowed to enter, are the ones performing criminal acts.

Those who are trying to fabricate charges against Mike Nearman are making themselves look like criminals. In fact, by ordering police to perform illegal acts against the general public, those giving such orders are equally guilty of the crime themselves.
