To: Joint Committee on Tax Expenditures; [others]...

**Re: I OPPOSE [HB 3302 A]...How much tax revenue will be lost by the income or corporate excise tax credit for contributions to workforce training organizations?**

[HB 3302 A] is rife for misuse and discriminatory practices.

To form your own opinion read the "Text" of [HB 3302 A] here:

[https://www.oregon.gov/dor/forms/FormsPubs/lodging-tax-program\\_604-401.pdf](https://www.oregon.gov/dor/forms/FormsPubs/lodging-tax-program_604-401.pdf)

\*Who are these "Workforce Training Organizations?"

\*Will more Non-profit corporations suddenly appear out of the woodwork to get on the public's dole?

\*Identify the funding source(s) to recoup the tax revenue losses to support the "**income or corporate excise tax credit for contributions to workforce training organizations.**"

\***Is the Legislature relying on property taxes to replace the loss of tax revenue to support [HB 3302 A]?**

A particularly egregious excerpt of [HB 3302 A] states,

" (1) "**Workforce renewal services**" includes:... (c) Employment-related barrier removal services, including assistance in obtaining social security cards, driver licenses and resolving legal impediments to employment."

An excerpt of the "Text" of [HB 3302 A]states,

" (1) "**Workforce renewal services**" includes: ...(d) Life skills training directly related to employment, including resume development, job interview skills, approaching and following up with employers, workplace communication, workplace etiquette, workplace appearance and hygiene, enhancing organizational skills, employee health and wellness, career goal setting, balancing family and job responsibilities and personal financial management."

[HB 3302 A] is be tailored to enable and facilitate illegal alien assimilation into our country and the workforce.

Does the Oregon legislature really believe the "voters" are so inane as to authorize an, "**income or corporate excise tax credit for contributions to workforce training organizations?**"

The majority of the "voters" don't even know [HB 3302 A] exists.

[HB 3302 A] is a bad piece of legislation.

*Respectfully submitted,*

/s/ David S. Wall

Mr. Oregon shakes his head negatively for trying to pull the wool over his eyes.
