Re: [HB 3143]: "Delays to December 15 date on which interest begins to accrue on first one-third of property taxes, and other related charges, not paid when due on November 15."

I OPPOSE THIS BILL.

[HB 3143] gives too much variation in excuses as to taxes not being paid equally and fairly by everyone.

Confers more power to County Assessors to judge validity of excuses and or confer "perks" to friends.

The State of Oregon is an economic mess and needs all the revenue justly squeezed from the taxpayers.

What is needed are Legislators who spend less on free services and pay down the principal instead of the service charges on accrued debts.
