

I am very concerned about unintended consequences of this bill. It will allow, could even require, the creation of unsafe housing arrangements. A landlord could be required to rent to a one bedroom apartment to a family of eight or ten. It could allow a landlord to rent a mobile home to a group of unrelated adults, or adults with children. These and similar scenarios would create dangerous and unsanitary living conditions and could place vulnerable persons in dangerous situations.

I urge you to stop this bill from moving further through the legislative process,
