

I am the Co-President of AAUW Ashland and an active member in AAUW of Oregon. I am also a senior well aware of the harm age discrimination causes. My career as a financial planner brought me in contact with many older people. They offer unique skill sets, wisdom and years of experience managing people. Yet too often they cannot secure jobs. Age discrimination is pervasive and adversely affects women, women who took time off to raise their children and need to return to the work force to build retirement security.

I urge you to support House Bill 2938.

Thank you,
Paula Wiiken, Ashland
