

This bill does nothing except to infringe further on our second amendment rights. Currently it takes the State Police about 10 days to process an "instant firearms check".

How about you work on meaningful ways to reduce your infectivity instead of infringing on the rights of the honest gun purchaser?

This bill does NOTHING except to to further advance the left's agenda of completely disarming the ordinary citizen. It should be clear by now to everybody who values freedom and personal responsibility that the ONLY intent the Democrats have with their ongoing crusade against gun ownership is to disarm the ordinary citizen.
