

The Constitution - (The Second Amendment), clearly states; The Government "SHALL NOT INFRINGE " on the right of the people to keep and bear arms! All of you took the oath to protect, preserve and uphold, So help you. This bill clearly inhibits that process! Your jobs are to aid the public to improve the availability and access to the services that our Tax dollars pay for! Not to promote your own agendas YOU WORK FOR US. We insist that you work within the Constitution put forth by the founding Fathers.
respectfully.
