

Dear Oregon Legislators,

Please strongly consider the negative and severe "unintended" consequences of this proposed bill. It would be felonious to even be on airport property even with a concealed handgun license. Why?! This has been proposed before.... please do not progress this terrible bill.

Additionally, this would double the cost of becoming a licensed, legal firearms carrier. Again - why!? More and more people (not me) will begin to carry without a license on account of the high cost alone. Everyone should be able to afford to defend their lives if necessary and this is a sadistic, poorly planned proposal that would do irreparable harm to those who wish to protect themselves - including the most exposed - our cherished women, young people and minorities.

I beg you to please consider the negatives of this bill. Please stop it in its tracks. Thank you for your consideration.
