

Please say yes to HB 5018

We have seen our fixed costs skyrocket. Government mandated policies ie: minimum wage, paid sick leave, rents and insurance costs takes a large portion out of our personal investment in our stores. The commission schedule to agents has not been updated in 34 years. Never have I heard of not even a cost of living increase to keep pace with increasing costs of running a business. The time is now to adjust inequities that currently exist in the compensation structure. The passing of this bill will help liquor agents to continue our efforts to drive revenue for Oregon.
